in the vineyard

The recent demarcation of the Darling district has led to a focus at Darling Cellars on wines which are terroir and varietal specific. The cool and temperate West Coast climate lends itself to a different micro- and mesoclimate which, along with the different types of soil, lead to unique grapes, which we guide into even more unique wines. Having 99% of all vineyards dry land and almost the same percentage as bush vine, this is as close to what nature intended for grapes to be as one can get.

DC is a wine range of straight varietals where the focus is on fruit driven, varietal true, value for money wines.

Terroir: Vineyards strategically planted on south-west facing slopes to capture cool breezes from the Atlantic Ocean and cold Benguela current. Deep soils from decomposed granite, clay rich, with good drainage.

Vineyard type: Bush Vine, no irrigation.

about the harvest

Yield: 5 - 6 ton/ha

Balling at Harvest: 21° - 22° B

in the cellar

Vinification: Crush and destalk, 14 days fermentation at 13° C. Grapes and juice handled reductively to prevent oxidation.

Maturation: Left on lees for 3 months to add complexity.
