main variety Sauvignon Blanc

analysis alc: 13.53 | ph: 3.28 | rs: 4.1 | ta: 6.5 | ts02: 40 | fs02: 120

type White

producer Darling Cellars

style Dry

winemaker André Scriven & Bertrum Titus

taste Fruity

wine of Darling

body Full

### tasting notes

This wine shows a full flavoured palate with layers of tropical fruit, aromas of ripe yellow gooseberries, green figs and asparagus. A well-balanced wine with a crisp acidity and green undertones that lingers on the aftertaste.

### blend information

100% Sauvignon Blanc

### food suggestions

This wine pairs well with seafood dishes, creamy chicken dishes, or a garden salad in early summer.

### in the vineyard

Grapes are harvested from two specifically selected blocks of vineyards. Bush Vines with no irrigation, South Western facing slopes on deep granite soils and the second, trellised vineyards higher up in the Groenekloof ward.

### in the cellar

Crush and destalk, 12 hours skin contact, 14 days fermentation at 13°C. Reductive winemaking. Left on lees for 6 months in Stainless Steel tanks to add complexity and depth.
