in the vineyard

The semi-precious stone of Onyx represents the dark granite bedrock so prevalent in the premium vineyard of Groenekloof. This vineyard, is without doubt, our most treasured pride and joy! It is only the very best of these selected parcels which produce wines of great depth and complexity that are bottled under Onyx. Terroir: Deep soils possessing decomposed granite. Darling hills. Vineyards: Bush vine/dry land. Climate: The climate is positively influenced by the Atlantic Ocean with sunny days and cool nights.
